Assignment 6

Q1. Implement following classes. Test all functionalities in main() of each created class. Note that employee is inherited into manager and salesman. **Insted of char[] use string datatype**

employee
- id: int
- sal: float

- employee()
- employee(int,float)
- get_id(): int
- set_id(int): void
- get_sal(): float
- set_sal(float): void
- display(): void
- accept(): void

manager
- bonus: float

- manager()
- manager(int,float,float)
- get_bonus(): float
- set_bonus(float): void
- display(): void
- accept(): void
- display_manager(): void
- accept_manager(): void

salesman
- comm: float

- salesman()
- salesman(int,float,float)
- get_comm(): float
- set_comm(float): void
- display(): void
- accept(): void
- display_salesman(): void
- accept_salesman(): void

sales_manager

- sales_manager()
- sales_manager(int,float,float,float)
- display(): void
- accept(): void
